10. List 3 local competitors for your business.

1. **Write the name of 3 companies in Texas that are similar to yours.**
- 2.
- 3.

11. How many employees will be in your business?

Come up with a number of employees for your business. Remember, if your business doesn't sell a lot, you probably can't afford many employees. They get expensive fast. When figuring this number out, think about all the different types of jobs you might need and make an estimate. There's no real right or wrong answer.

12. My business stands out above my competitors because:

Why is your business better than all the other businesses like yours? Be descriptive and specific.

13. What do you expect your Net Profit to be each year (give your best guess)?

How much money do you expect to make in one year? Make your best estimate. There's no real right or wrong answer.
